etj.bioscientifica.com
IMPACT FACTOR: 3.5

*Bioscientifica reserves the right to withdraw this offer at any time.

For more information, email sales@bioscientifica.com

READ AND PUBLISH

Bioscientifica is committed to making the research published in its journals accessible to the widest possible audience. We've introduced a 'Read and Publish' agreement as an alternative to the traditional subscription model.

Institutions who sign up to the agreement get unlimited access to all Bioscientifica journals, plus free open-access publishing for corresponding authors in these titles.

WHY CHOOSE A READ AND PUBLISH AGREEMENT?

- Transparent and cost-neutral pricing.
- Easy to administer: one annual fee covers both usage and publishing.
- Helps your institution to meet funding requirements, and to make open access the default publishing choice.

FIND OUT MORE

To find out how a Read and Publish deal could benefit your institution, email sales@bioscientifica.com

OPEN ACCESS IN HYBRID JOURNALS

For authors who choose to publish their article open access in a subscription or hybrid journal, Bioscientifica offers a 50% discount on open-access publishing if the library subscribes to that journal.

For more information, email sales@bioscientifica.com

REASONS TO CHOOSE BIOSCIENTIFICA AS AN AUTHOR

Publishing in a Bioscientifica journal gives your work the reach and recognition it deserves. As an author you can expect:

Rigorous peer review – We provide fast and thorough peer review by our international network of expert referees, supported by our world-class editorial boards.

High discoverability – Our journals are indexed in all the key relevant databases at the earliest opportunity, including PubMed, Web of Science, Scopus, Google Scholar, HINARI, SCImago and many more, giving your work the visibility it deserves.

Exciting special collections – Our collections bring together some of the most influential and timely research, driving discoverability to increase your article's impact.

A quality editorial experience from a trusted, society-owned publisher – By publishing with Bioscientifica, you're funding progression in science. We redistribute all profits made from publishing back to the Society for Endocrinology, our parent charity, as well as our partner societies, to advance biomedical research and practice.

For more information, email sales@bioscientifica.com

YOUR SUBSCRIPTION ENABLES OUR PARTNERS TO:

- Advance medical research through training events, where professionals share the latest clinical knowledge and experience.
- Produce treatment guidelines that enable health professionals to make more informed decisions about patient care.
- Distribute grants, awards and prizes that reward excellence at all medical and scientific career stages.
- Engage with the public through education events, interactive workshops, and free online resources, which help people to make informed decisions about their health.
